Find **5 ideas** that you think
are true for you

Student 1

Read and find **5 ideas** that you think are true for you
Be ready to tell them to your partner.

Do you look at people around you and say to yourself, 'Wow, we're all so different!?' Well, recently I had the opposite idea. I think that in many ways we're all the same. We like, feel and do many of the same things.

What kind of things do we all do at home? We all dance in the kitchen to our favourite music and we look in the fridge for no reason. We put a key behind a book on a shelf or in a small box next to the computer. Then we forget where it is. We wake up early at weekends when we don't have work. And then we can't wake up early on Monday. We make a cup of tea or coffee, and then we forget to drink it until it gets completely cold. We stand in the shower for too long, thinking about life. We watch short videos online and tell ourselves, 'Just one more,' but then we are late for work. We keep clothes that we never wear. We look at our phone in bed, just before we go to sleep. And yes, sometimes we talk to ourselves, or to our pets.

Finally, we all have good days and bad days. We want people to like us. And we love being right.

What about outside the home? Well, how do you feel about sitting in your car at a red light? Nobody likes waiting, so it's not surprising that we all hate traffic. In the cinema we all cry at the sad part of the film. We join gyms and pay a lot of money to be a member, and then we never go. We take a book to a café or the beach and never read it.

And what about buying food? We go to the supermarket with a good plan, but we always buy crisps, chocolate and other snacks that are not on the list. We buy fresh vegetables because we want to eat healthily. Then we put them in the fridge and find them two weeks later, looking terrible.

Do you look everywhere for your phone and then find it's in your hand? Do you buy things and use them only once, and then never again? Do you pack extra clothes in your suitcase when you go on holiday? Do you only wear some of them, but not all of them? Of course you do. We all do. And which day of the week is your favourite? Don't tell me. I know the answer.
